

Kamillosan Instructions

Use 3-4 times a day. Mix 5ml of Kamillosan with 4oz of water.

1. Rinse out mouth well with an oral rinse like Biotene Mouthrinse. Do not use regular mouthwash as it may burn the ulcerated tissue due to the alcohol content.
2. Swish the Kamillosan mix around mouth and spit out.
3. Rinse with another mouthful, but swallow all subsequent mouthfuls to coat your throat.
4. Continue to rinse until the 4oz cup is empty.
This takes approximately 4 mouthfuls.
5. Kamillosan will not interact with any other medicines you may be taking. It will not upset your stomach. It is actually soothing to your stomach.

Notes

Kamillosan is a medicament derived from the Camomile plant. This product was shown in research done by Dr William Carl at Roswell Park Cancer Institute in Buffalo, New York, to help promote and speed healing at the cellular level of oral tissues damaged by radiation and chemotherapy.
